

REMARKS

In response to the above-noted Office Action, Applicant has amended Claim 1 to incorporate the limitations of Claim 5 which has been cancelled and added Claim 11 which is Claim 6 rewritten in independent form. Claim 7 has been amended to change its dependency from cancelled Claim 6 to Claim 11. Claim 10 has been amended to incorporate the limitations of cancelled Claim 5. Claims 12-16 correspond to Claims 2-4, 8 and 9 but depending from Claim 11 instead of Claim 1. Claim 17 has been added which is essentially original Claim 10 incorporating the limitations of cancelled Claim 6. Additionally, the Specification and Title have been amended as suggested by the Examiner.

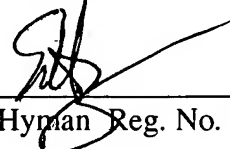

Claims 1 and 10 are rejected under U.S.C. 102(e) as being anticipated by Wang et al. Claims 3 and 4 are rejected under U.S.C. 103(a) as being unpatentable over Wang et al. In response to this rejection, Applicant has amended the claims so that the independent claims correspond to Claims 5 and 6 rewritten in independent form which the Examiner indicated contain patentably distinguishable subject matter.

In view of the foregoing, Applicant submits that the claims pending for examination, namely Claims 1-5 and 7-17 are now in condition for allowance.

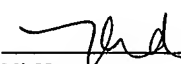

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN
